Item 2. Old Business:

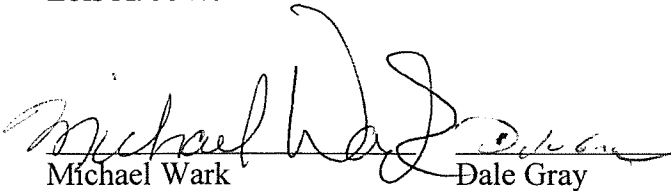

A. Paving on Silver's Mills Road 800-foot project. Discussion was about paving, how, where, and effects of truck traffic. Herrick was going to be hauling approximately 150 loads of gravel over Silver's Mills Road the next week. Town Manager was directed to ask Pike that if we pave/shim, what is the effect of that truck traffic? There was also some discussion regarding the 800 foot rebuild section. It is not ready for paving. Also, each end of the taper of the 800 ft section needs some more work – the pavement underneath is not completely broken up the full distance that it needed. There is also a rock in the road that has not yet been removed. Herrick is willing to fix these two issues, and also remove the old culvert at the end of the Ilesboro Road. There are five more culverts that need replacing on Silver's Mills, between French's Mill and Brockway Mills. If these are replaced, we can shim more on Silver's Mills, and do overlay paving next year. Two motions were made: Chairman Wark made a motion and Selectman Cabot 2nd to not do the shim and overlay paving from Hartford Lane to French's Mill Road. All in favor. Selectman Gray made a motion and Selectman Cabot 2nd to start shim on the Silver's Mills Road at the first culvert just north of the rock that needs to be replaced by Nuite's barn, and shim only until the budget is expended. All in favor.

Item 3: Adjourn. Chairman Wark made a motion and Selectman Cabot 2nd to adjourn. All in favor.

Respectfully submitted,

Lois A. Jones
